Topic	Question Text	Answer Choice 1	Answer Choice 2	Answer Choice 3 (optional)	Answer Choice 4 (optional)	Correct answer
State Project Manager (CSC)	Users are reporting Internet connectivity issues. The network administrator wants to determine if the issues are internal to the company network or if there is an issue with the ISP. Which of the following tools should be used to BEST determine where the outage is occurring?	traceroute	Ping	nslookup	netstat	Choice 1
State Project Manager (CSC)	Common Service Centre's (CSC) e-Governance Services India Limited and this IIT institute has tied to upscale Unnat Bharat Abhiyan, recently.	IIT-Mumbai	IIT- New Delhi	IIT- Roorkee	IIT- Kanpur	Choice 4
State Project Manager (CSC)	MeitY, GoI has constituted a committee of experts under the chairmanship of _____ for data protection.	Justice BN Srikrishna	Arvind Panagriya	Justice Bobde	Justice CP Thakur	Choice 1
State Project Manager (CSC)	Routers R1 and R2 are connected via a private line using PPP. On this link, which of the following options lists the steps in PPP session establishment in the correct order?	Network layer protocol phase, optional authentication phase, link establishment phase	Link establishment phase, network layer protocol phase, optional authentication phase	Optional authentication phase, network layer protocol phase, link establishment phase	Link establishment phase, optional authentication phase, network layer protocol phase	Choice 4
State Project Manager (CSC)	Which command on Windows will allow you to verify the path a packet gets routed through on the network?	C:\>tracert 198.78.34.2	C:\>ping 198.78.34.2	C:\>traceroute 198.78.34.2	C:\>route print	Choice 1
State Project Manager (CSC)	Following are the phases of Project Management Life Cycle. Arrange them in correct order. 2.Design, 2. Marketing, 3. Analysis and evaluation, 4. Inspection, testing and delivery	3-2-1-4	1-2-3-4	2-3-1-4	4-3-2-1	Choice 1
State Project Manager (CSC)	Project performance consists of	Time	Cost	Quality	All of the above	Choice 4
State Project Manager (CSC)	Which Indian state has launched a portal named 'PAReSHRAM', to deliver the state department services?	West Bengal	Odisha	Maharashtra	Madhya Pradesh	Choice 2
State Project Manager (CSC)	Router R1 is configured to run EIGRP. Which tables of EIGRP route information are held in RAM and maintained through the use of hello and update packets in this router?	SPF table	Neighbor table	Query table	State Table	Choice 2
State Project Manager (CSC)	Which of the following are included in "Digital India" program?	e-governance	Wi-Fi in All Universities	Broad band connectivity at village level	All of the above	Choice 4
State Project Manager (CSC)	When implementing virtualization, a server must provide ample memory space for the _____.	Operating system	Hypervisor	Virtual machines on the server	All of the above	Choice 4
State Project Manager (CSC)	Digital signature service has been launched on Aadhaar platform. What is it called?	DigiSign Desk	eSign Desk	OnlineSign Desk	None of the above	Choice 2
State Project Manager (CSC)	Why do most enterprises prefer a hybrid infrastructure?	Combines the flexibility and scalability of public clouds with the control of on- premises	No vendor lock-in	Temperatures rise at slower rates		Choice 1

State Project Manager (CSC)	Design phase consist of	Input received	Output received	Both A & B	None of the above	Choice 3
State Project Manager (CSC)	Which multiple access technique is used by IEEE 802.11 standard for wireless LAN?	CDMA	CSMA/CA	ALOHA	CSMA/CD	Choice 2
State Project Manager (CSC)	What is an interconnected data center?	An interconnected data center is where networks converge	An interconnected facility in your own data centers	A colocation facility for speed dating		Choice 1
State Project Manager (CSC)	You want to ping a router on your network from interface Serial 0/0 and not the path in the routing table. How can you achieve this?	This cannot be done; packets cannot disregard the routing table.	Enter the interface in configuration mode, and ping the remote router.	Enter extended ping, and specify the exit interface	Configure a temporary route for the router exiting the interface.	Choice 3
State Project Manager (CSC)	Three access points have been installed and configured to cover a small office. What term defines the wireless topology?	SSID	BSS	ESS	IBSS	Choice 3
State Project Manager (CSC)	requirement in project becomes constant while the project is in its ____ progress stage.	40-50%	55-70%	70-80%	80-95%	Choice 4
State Project Manager (CSC)	Which business practice protects the information needed by the organization to conduct its business?	Supplier management	Incident Management	Information Security Management	None of the above	Choice 3
State Project Manager (CSC)	Which of the following are programs under Digital India scheme?	National Scholarships Portal	Bharat Net	eSign framework	All of the above	Choice 4
State Project Manager (CSC)	What is a Network Operating Center?	The area of a data center where operators can monitor the performance network devices and administer equipment in need of maintenance	The area of a data center where the computer network is operated from.	The area of a data center where operators monitor the network, also known as the computer room.		Choice 1
State Project Manager (CSC)	What is the advantage of using a multipoint interface instead of point-to-point subinterfaces when configuring a Frame Relay hub in a hub-and-spoke topology?	It avoids split-horizon issues with distance vector routing protocols.	A multipoint interface offers greater security compared to point-to-point subinterface Configurations. (D) The multiple IP network addresses required for a multipoint interface provide greater addressing flexibility over point-to-point configurations	IP addresses can be conserved if VLSM is not being used for subnetting.	None of the above	Choice 3

State Project Manager (CSC)	Server virtualization has proven to reduce data center capital and operational expenses assuming the consolidation ratio offsets the cost of _____.	Air-side economizers	Virtualization software licensing	Implementation	Server power supplies	Choice 2
State Project Manager (CSC)	Which of the following are benefits provided with access control lists (ACLs)?	ACLs monitor the number of bytes and packets	Virus detection	ACLs identify interesting traffic for DDR	ACLs provide high network availability.	Choice 3
State Project Manager (CSC)	In general, quad-core CPUs are recommended for virtual hosts because _____.	Most virtualization software is licensed by the number of sockets in a server and not the number of cores you have	Most virtualization software is licensed by the number of cores in a server and not the number of sockets you have			Choice 1
State Project Manager (CSC)	Under which network type circumstance would an OSPF router establish router adjacencies while not performing the DR/BDR election process?	Point-to-point	Non-broadcast multi-access	Broadcast	None of the above	Choice 1
State Project Manager (CSC)	Which of the following VPN protocols establishes a secure session that can be initiated using a browser?	IPSec	SSL VPN	PTP	PPTP	Choice 2
State Project Manager (CSC)	Why should incidents be prioritized?	To help automated matching of incidents to problems or known errors	To identify which support team the incident should be escalated to	To ensure that incidents with the highest business impact are resolved first	To encourage a high level of collaboration within and between teams	Choice 3
State Project Manager (CSC)	Which of the following are among the 9 pillars of the Digital India Program?	Broadband Highways	e-Governance	IT sector Jobs	All of the above	Choice 4
